

AI FULL STACK
DEVELOPER

OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in Java, JavaScript, React.js, Spring Boot, REST APIs, MySQL, HTML5, CSS3, and Tailwind CSS. Interested in building practical, responsive, and user-friendly web applications with AI-powered features. Seeking an opportunity to apply my skills, gain real-world experience, and grow as a software developer.

SKILLS

Programming: Java, JavaScript

Frontend: HTML5, CSS3, Tailwind CSS, React.js, React Hooks, React Router

Backend: Spring Boot, REST APIs

Database: MySQL

AI Tools: Gemini, Ollama, Local LLM Integration, AI API Integration

Tools & Version Control: GitHub, Visual Studio Code

Core Concepts: Responsive Web Design, Flexbox, CSS Grid, API Integration, CRUD Operations

PROJECTS

MinnalMart — Electronics E-Commerce Website | [Live Demo](#)

- Developed a 17-page responsive electronics e-commerce website featuring reusable navigation, product listings, shopping cart, offers, support, and contact pages. Built with HTML5 and Tailwind CSS using a mobile-first, component-based approach.
- Designed a modern and user-friendly interface with responsive Grid and Flexbox layouts, hero video sections, product cards, forms, tables, and consistent UI components, ensuring seamless usability across mobile, tablet, and desktop devices.

Technologies Used: HTML5, Tailwind CSS

BookMySeat — Full-Stack Cinema Booking Application | [Live Demo](#)

- Developed a React.js cinema booking platform integrated with the TMDB API to fetch real-time movie data, including posters, ratings, languages, and release details.
- Implemented an end-to-end booking flow with theatre and show selection, dynamic seat booking, snack customization, live price calculation, cart management, GST calculation, and digital ticket generation.
- Integrated a Gemini AI-powered chatbot to provide movie recommendations and assist users with ticket pricing and booking-related queries. Used localStorage for authentication, booking history, and persistent user data across sessions.

Technologies Used: React.js, JavaScript, Tailwind CSS, React Router, TMDB API, Gemini API, localStorage, HTML5, CSS3

EDUCATION

Velammal College of Engineering and Technology, Madurai

2023 – 2026

Bachelor of Technology – Information Technology | CGPA: 8.12

Arasan Ganesan Polytechnic College

2020 – 2023

Diploma in ECE | Percentage: 89.9%

CERTIFICATION

- Java Intermediate Certification — [View Certificate](#)
- IEEE Certification for AI — [View Certificate](#)

INTERNSHIPS

Android App Development Intern – Kevel Crop, Madurai

- Developed a Task Buddy To-Do List application using Flutter, implementing core to-do features such as task creation, editing, and deletion.
- Gained practical experience in Android application development, including UI design and app workflow within a real development environment.

EXTRACURRICULAR ACTIVITIES

- IEEE Xplore Publication — VoiceAssistRural: An AI-Powered Offline Multilingual Voice Assistant Leveraging Quantized Whisper Models and Local LLM Framework | [View Publication](#)
